Mr. Tim Morgan
Ravenna Army Ammunition Plant
Attn: SIORU-NR
8451 State Road 5
Ravenna, OH 44266-9297

Dear Mr. Morgan:

On June 23, 1999, Rod Whiteman of my staff conducted an aerial detection survey for gypsy moth-caused tree defoliation at Ravenna Arsenal. I am pleased to report that no defoliation was detected at your site. However, approximately 2 acres of moderate defoliation were detected just south of nearby Michael J Kirwan Dam. This defoliation is depicted in Figure 2 and is enclosed for your information.

If you anticipate requesting either financial or technical assistance for gypsy moth control in 2000, please contact Brad Onken or Rod by letter or telephone (304) 285-1541 before August 27, 1999.

Please contact Rod at the above number if you have any questions regarding this aerial survey letter.

Sincerely,

for 

JOHN W. HAZEL
